11. 🖾 The request for reconsideration has been considered but does NOT place the application in condition for allowance because:

12. Note the attached Information Disclosure Statement(s). (PTO/SB/08) Paper No(s).

Continuation of 11. does NOT place the application in condition for allowance because: Applicants stated it was not seen where the prior art taught a bone growth substance. The Examiner would like Applicants to look at paragraph 30 of the Ray reference. It clearly discloses a bone growth promoting substance. In response to Applicant's remarks that there is no teaching in the references to combine the features of the prior art, it should be noted that Ex parte Smith 83 USPQ2d 1509 states the KSR decision explains why no teaching is required to support a finding of obviousness. For example the combination of known elements together in a kit is obvious when it does nothing more than produce predictable results of simplifying the surgery for the surgeon by having all the available components together at the time of the procedure. In this case the combination does not teach away since having additional elements together does not prevent the devices from still being used for their intended purpose.
